A Briefing on Georgia's Budget: The Big Picture

Overview

- Georgia's Revenues
 - Economic drivers of current revenue situation
 - Loss of efficiency in tax system
- Georgia's Expenditures
 - Overview
 - PreK-12
 - Higher Education
 - Medicaid
 - Transportation
 - Other
- Conclusions

Revenues

Georgia's revenue dilemmas are largely structural.

Georgia's General Fund Revenues 1984-2020

Data Sources: State Budgets/Budget in Brief FY16A-FY17

Georgia's Real per Capita General Fund Revenues (2015 dollars)

Data Sources: State Budgets/Budget in Brief, Bureau of Economic Analysis GDP Deflator;
Moody's Economy.com GDP forecast data.

Georgia's State Fund Revenues (FY 2017A)

In FY17A Budget

\$22.9 billion in State General Funds (Receipts)

\$24.3 billion in State Funds

In FY18G Budget

\$23.7 billion in State General Funds (Receipts)

\$25 billion in State Funds

Georgia State Revenues Compared to Other States

Federal Government	\$1,099	34	\$1,378	47	\$1,873	41	\$1,578	42

Georgia's own source state and local revenues are equal to 13% of personal income, rank is 43rd; state and local *tax* revenues are 9% of percent of personal income, rank is 39th.

Economic Shifts

A large portion of Georgia's revenue issues are less about policy changes and more about a fundamental economic shift.

Inflation Adjusted Personal Income Per Capita (2015 dollars)

Data Sources: Bureau of Economic Analysis, GDP Deflator. BLS Regional and State Employment and Unemployment. For more discussion of these issues see: Fiscal Research Center Reports [#263](#) and [#253](#).

Georgia Employment Growth and Wages

Avg. wages in 2000; employment change 1990-2000 size of bubble is total employment in 2000

Data from GA DOL ES202 Survey; median household income in US was \$41,789 in nominal dollars in 2000, US Census. In Georgia it was \$41,481 (Money Income in the US, 2000, Table E; page 12,)

Georgia Employment Growth and Wages

Avg. wages in 2014, employment change 2000-2014, size of bubble is total 2014 employment

Data from GA DOL ES202 Survey; median household income in US was \$51,847 in nominal dollars in 2014, and was \$47,958 in Georgia (US Census Bureau, American Community Survey, Table H-8B)

CHANGE IN JOBS IN MAJOR SECTORS

Data Source: REMI Data Tables; note 2013-2015 is projected

Metro Atlanta Employment Growth and Wages

Avg. wages in 2014, employment change 2000-2014, size of bubble is total 2014 employment

Data from GA DOL ES202 Survey; median household income in US was \$51,847 in nominal dollars in 2014, and was \$47,958 in Georgia (US Census Bureau, American Community Survey, Table H-8B)

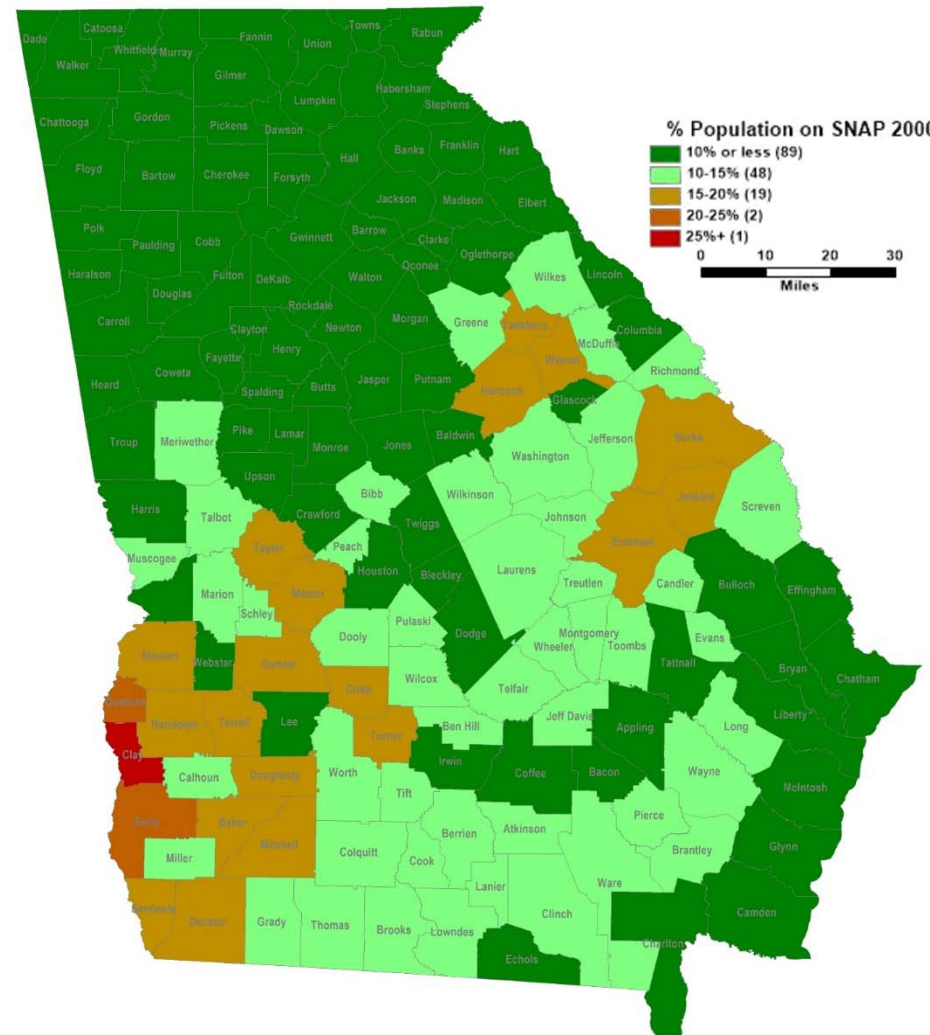

Non-Metro Atlanta Employment Growth and Wages

Avg. wages in 2014, employment change 2000-2014, size of bubble is total 2014 employment

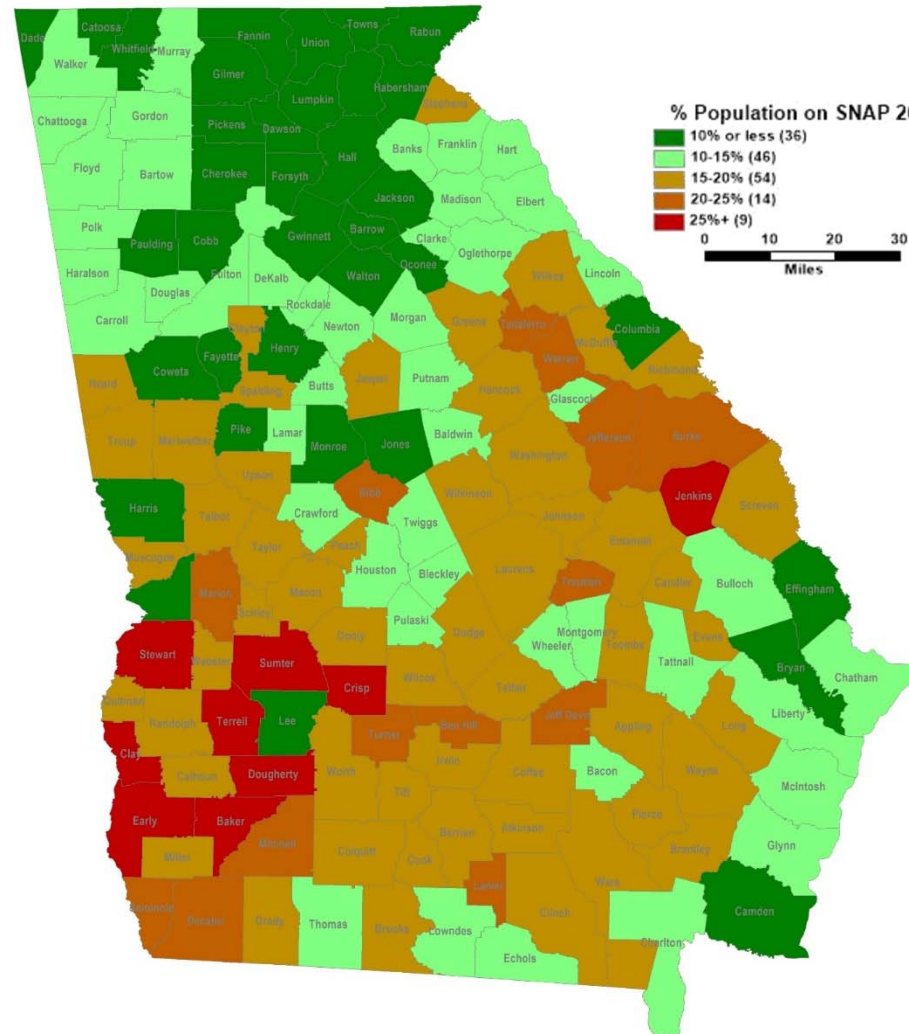

Data from GA DOL ES202 Survey; median household income in US was \$51,847 in nominal dollars in 2014, and was \$47,958 in Georgia (US Census Bureau, American Community Survey, Table H-8B)

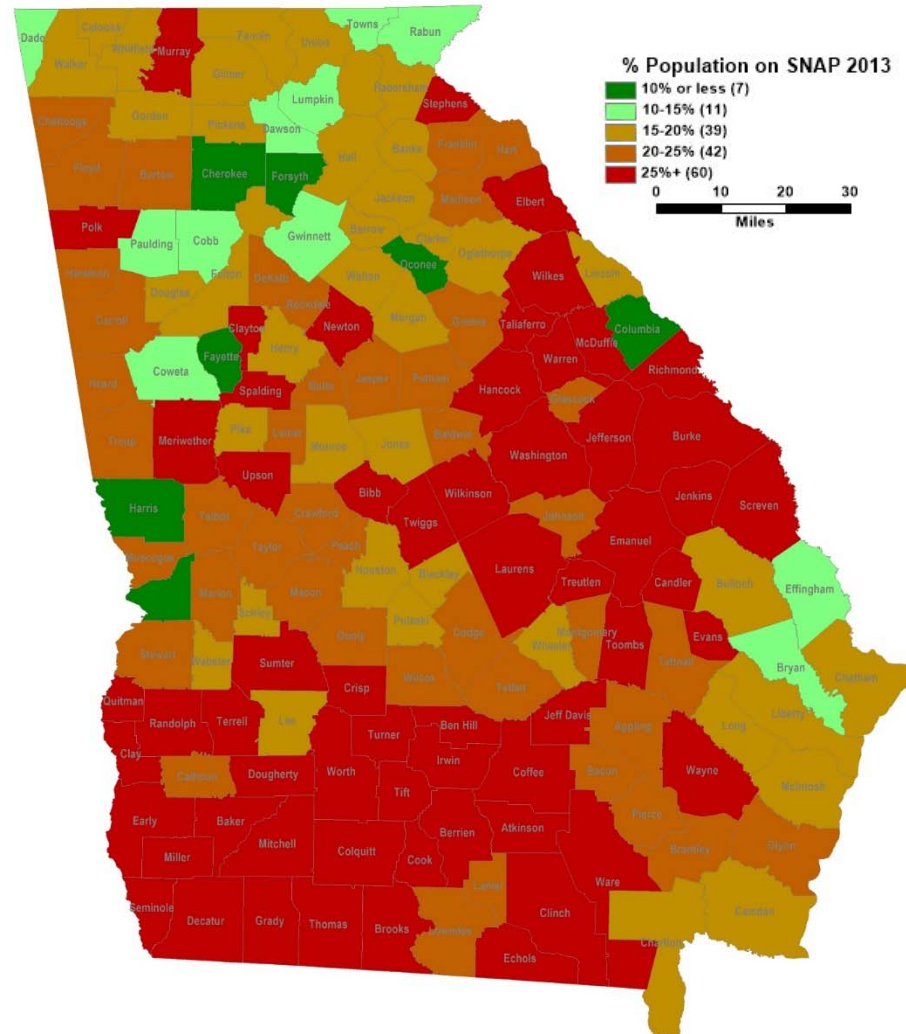

% Population on Food Stamps 2000

% Population on Food Stamps 2008

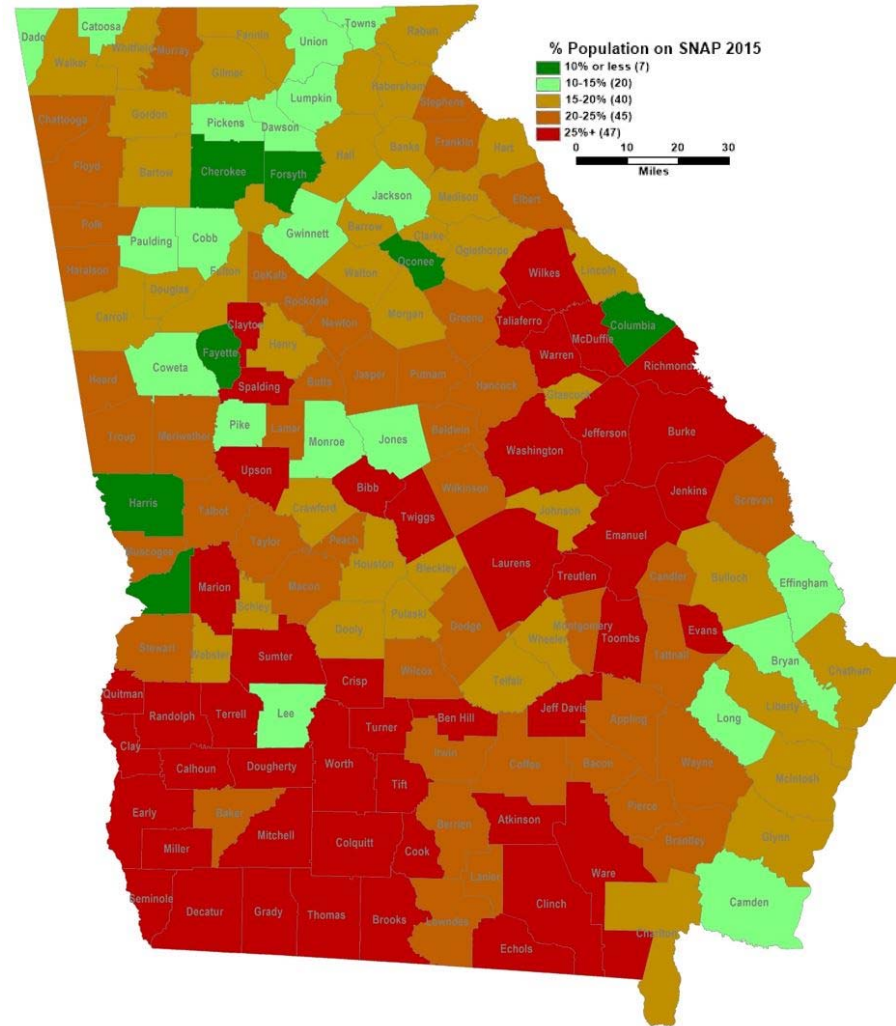

% Population on Food Stamps 2013

Note: there have been policy changes across the decade to increase eligibility for food stamps (SNAP); but poverty maps show a similar picture

% Population on Food Stamps 2015

Change in Tax Structure and Efficiency

Georgia's General Fund Revenues as % of Personal Income

Georgia's revenue issues are not entirely related to the economy, Georgia's tax and fee system now captures a smaller percentage of the state's "wealth" than it did in prior decades.

- Between 1989-2001, Georgia taxed 5.9% of personal income on average.
- Between 2002-2008, Georgia taxed 5.4% of personal income on average.
- Between 2009-2016, Georgia taxed 4.9% of personal income on average (with HB 170, it is now at 5%)
- If Georgia increased taxes to capture 5.89% of personal income = \$3.4 billion in additional revenues in FY16

Data Sources: OPB Budget in Brief, Bureau of Economic Analysis, Author's calculations; note that personal income projections for 2015 and 2016 are estimates.

Where did the money go (2016 analysis)?

Amounts of Tax Revenue if We Currently Collected at the Historic % of Personal Income							
		Income Tax		Sales and Use Tax		Corporate Income Tax	
Where have we lost revenue?		Average as % of Personal Income	Estimated Tax Revenues in 2016 if Collected at Historic	Average as % of Personal Income	Estimated Tax Revenues in 2016 if Collected at Historic	Average as % of Personal Income	Estimated Tax Revenues in 2016 if Collected at Historic
Avg 1989-2001	5.89%	2.51%	10,721,600	2.08%	8,889,565	0.36%	1,551,505
Avg 2002-2008	5.42%	2.52%	10,776,957	1.80%	7,686,712	0.24%	1,032,528
Avg 2009-2016	4.85%	2.27%	9,702,887	1.40%	5,964,633	0.21%	903,152
Actual 2016	5.08%	2.45%	10,084,280	1.32%	5,432,889	0.24%	985,335
2016 SGF Revenues	\$21,698,897						
2016 Revenues at 1989-2001 Average	\$25,161,016						
Difference	-\$3,462,118	-6%	-\$637,320	-39%	-\$3,456,676	-36%	-\$566,170

Income tax decline is partly due to the exemption of retirement income from the income tax, valued at roughly \$790 million in FY14. Sales tax story is more mixed. Roughly \$700 million is from tax shifts (MV and TAVT) and roughly \$670 million is tax relief (e.g., the \$438 million from the tax exemption on food). The remainder is structural.

Georgia's Revenue Dilemma

Georgia is highly dependent on core tax revenues: sales, income and property taxes. These taxes have been affected by:

- 1) underlying structural problems in the economy that pre-date the current recession,
- 2) changes in what we purchase (ex/ services), how we purchase (ex/ internet sales), and how we hold our wealth (ex/ stocks and bonds), as well as changes in tax planning have eroded Georgia's tax base,
- 3) and tax policy decisions to add exemptions, deductions, and credits while keeping the basic tax structure constant.

Expenditures

A critical concern for states is the extent to which Medicaid, pensions, and long term liability expenses will crowd out investment in human and physical capital.

State Fund Expenditures 2017

(Includes State General Fund, Motor Fuel, Lottery, Tobacco)

Georgia's state spending is dominated by education – both pre-K12 and higher education (53%).

State Appropriations (All State Funds)

Georgia's Real per Capita Expenditures (2015 dollars)

Data sources: Budget in Brief FY15A-FY16, BEA NIPA Tables 1.1.4 for GDP, Moody's Economy.com GDP growth projections and Author's calculations; does not include HB170

Virginia	6.9%	8%	1%	1%	4%	\$11,053	2	\$11,468	4	-2
West-Virginia	-0.1%	8%	23%	-1%	11%	\$10,878	4	\$12,098	3	1

- In 2002, Georgia ranked first among southern states in per student spending; in 2014, it had moved to 10th; originally the decline was driven by state funding, but increasingly local fund declines are playing a role.

Calculations from revenue figures provided by the US Census F-33 Financial Survey.
Table uses national GDP price deflator to adjust for inflation.

Major State Budget Cuts between 2009-2017 in Pre-K through 12

- Significant effort to restore QBE funding: Around a 22% increase in an \$8 billion+ program, only remaining austerity cut of \$166.8 million in FY 2017 budget.
- However, Equalization funding is equivalent to 2008 levels in nominal dollars.
- A 16% nominal cut in funding for Georgia's pre-K program between FY11-13; as of FY17 funding is now roughly back to FY11 levels.
 - Cut originally included a 20 day reduction in the number of days of pre-K (restored in FY14) and increases in class size by 2 students.
- The state eliminated the following programs:
 - graduation coaches, academic coaches, mentor teachers, classroom supply cards, health insurance supplements for non-certificated school employees (ex/ bus drivers, school lunch room workers), migrant education, National Board Certification Salary Enhancement, SAT and ACT Prep, eliminate CRCT for grades 1 and 2; eliminate writing assessment for grades 3 and 5.
- Also have been declines in state contributions to support health benefits for school employees.
 - Cumulative \$402.8 million annual cut in health coverage for non-certificated employees.

Projections: Likely v. Aspirational

- In 2015, school districts would need \$2 billion in additional funds to match the 2008 per student funding levels.
 - State would need to contribute \$1 billion more
 - School districts would need to raise \$1 billion more
- Note that the state contribution is moving upward; so the gap is shrinking not growing, but local governments on average continue to decline on real per capita basis
- Property tax digests are coming back but are still nowhere near pre-recession levels in most areas.

Higher Education

Georgia Employment Growth & Wages, with HS or Less job change 2009-2015, size of bubble is 2015 employment

Data is from the US Census American Community Survey median household income in US was \$51,847 in nominal dollars in 2014, and was \$47,958 in Georgia (US Census Bureau, American Community Survey, Table H-8B)

Georgia Employment Growth & Wages, Some College or Assoc. Degree job change 2009-2015, size of bubble is 2015 employment

Data is from the US Census American Community Survey median household income in US was \$51,847 in nominal dollars in 2014, and was \$47,958 in Georgia (US Census Bureau, American Community Survey, Table H-8B)

Georgia Employment Growth & Wages, with College job change 2009-2015, size of bubble is total employment in 2015

Data is from the US Census American Community Survey median household income in US was \$51,847 in nominal dollars in 2014, and was \$47,958 in Georgia (US Census Bureau, American Community Survey, Table H-8B)

Virginia	20%	-16%	50%	15%	\$11,244	5	\$12,968	2	3
West Virginia	3%	-6%	52%	20%	\$9,503	12	\$11,425	11	1

Revenue figures from State Higher Education Executive Officers Association, State Higher Education Finance Report. These numbers are not weighted by type of student; state appropriations include HOPE and other state financial aid and grant programs. Numbers are adjusted using a GDP Price Deflator.

Back of the Envelope Projections: 60% 25-34 with Post-Secondary Degree

- Per the US Dept. of Education, around 35-37% of Georgians between 25-34 have a college degree and around 350,000 were enrolled in 2014
- To get to a 60% college attainment level, Georgia would essentially have to increase the public systems student population by around 67%
- Assuming current levels of per student spending, this will cost around \$1.6 billion more annually in state appropriations OR will require tuition to rise by 65%.

Medicaid

DCH FY16G State Funds Budget

NOMINAL MEDICAID EXPENDITURES IN GEORGIA FFY2000-2014

Revenue figures from CMS-64 federal reports on expenditures.

Real Georgia Medicaid Expenditures per Enrollee by Fund Type FFY2000-2014, 2015 Dollars

Revenue figures from CMS-64 federal reports; enrollment numbers are from the Kaiser Family Foundation counts for the month of December for each calendar year; NOTE that other reports count any enrollee at any point in time during a year; in these counts Georgia may have a large enrollment which has the effect of decreasing estimates of cost per enrollee.

Real Per Enrollee Expenditures by Fund Source for the Average SLC State
(in 2015 Dollars)

Fund Source	Trend Between 2000 and 2014 in Per Enrollee Expenditures by Fund Source

Transportation

Real Per Capita Transportation Spending (State Funds)

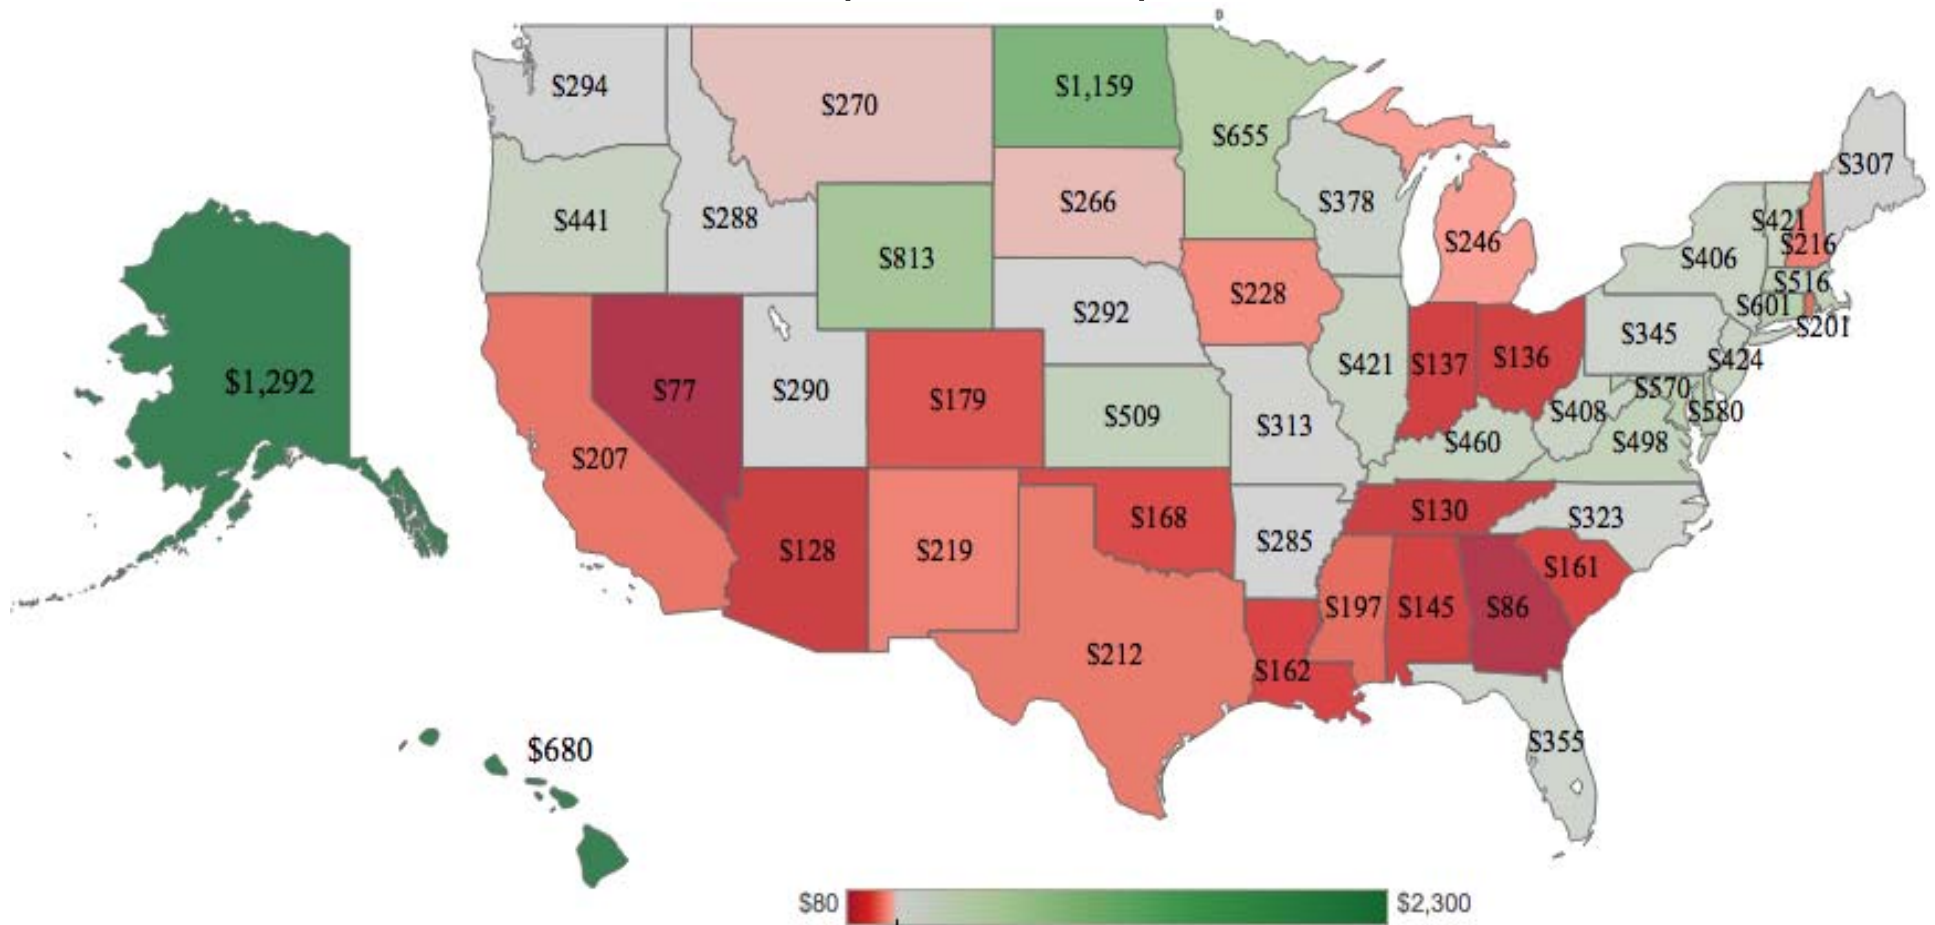

- In real per capita dollars spending on transportation declined by 27% between 1991 and 2015.
- The Transportation Funding Act of 2015 (HB 170) increased per capita transportation spending by 86% in FY 2017.

SLC Transportation Comparison 2004-2015 (2015 dollars)

State	Per Capita Spending Growth	Per Capita Transportation Spending 2004	Rank in 2004	Per Capita Transportation Spending 2015	Rank in 2015	Change in Rank
Alabama	-20%	\$175	12	\$143	12	0
Arkansas	11%	\$272	9	\$306	7	2
Florida	27%	\$301	8	\$388	4	4
Georgia	-41%	\$162	13	\$97	15	-2
Kentucky	19%	\$413	2	\$498	2	0
Louisiana	-51%	\$333	7	\$167	11	-4
Mississippi	-21%	\$270	10	\$218	9	1
Missouri	-18%	\$377	5	\$312	6	-1
North Carolina	-10%	\$346	6	\$317	5	1
Oklahoma	4%	\$187	11	\$198	10	1
South Carolina	-66%	\$410	3	\$141	13	-10
Tennessee	-19%	\$159	14	\$131	14	0
Texas	60%	\$147	15	\$240	8	7
Virginia	22%	\$425	1	\$527	1	0
West Virginia	5%	\$387	4	\$414	3	1

Source: NASBO State Expenditure Reports; when including the first year revenue effects of the Transportation Funding Act, Georgia moves to \$158 in real per capita spending in FY17. On this table this increase would move Georgia to 12th, below Louisiana but above Alabama.

Per Capita Transportation Spending (FY 2014)

Other Fiscal Issues

Rebuilding Reserves

Other Post Employment Benefits

Revenue Shortfall Reserve Total and % of Budget: 1988 - 2015

Other Post-Employment Benefits (largely health benefits)

- Georgia typically makes the full ARC for all of its pension funds. The main “hole” in the budget ties to OPEB:
 - OPEB State Employees, UAAL of \$3.4 billion, ARC of \$275 million, state contributed \$267 million in FY16
 - OPEB Teachers, UAAL of \$10.5 billion, ARC of \$873 million, state contributed \$408 million; **\$465 million short**
 - Regents OPEB, UAAL of \$2.7 billion, ARC of \$295 million in FY16, BOR contributed \$111 million; **\$184 million short**

FY17A Outlook, Governor's Proposal

- The state appears to be on solid footing as it goes into the last half of FY17.
 - FY17G was based on \$22.5 billion in State General Fund Tax and Fee Revenues
 - Originally, this required 3.8% growth over FY16A estimates
 - FY16 final numbers were 2.48% above estimates (\$538 million)
 - So FY17 now only requires 1.28% growth to make budget.
 - October revenues were tracking at 4.8% YTD growth;
 - income tax @ 3% YTD; net sales @ 4% YTD
 - Unlike past years, the Governor increases the FY17 revenues estimate to 3% growth over FY16 actuals.
 - Budget adds \$384 million plus \$222 in midyear reserves = \$605 million
 - In December, state reported 4% growth YTD

December Numbers Compared to Prior Years

- FY17 4.0% YTD growth
- FY16 8.7% YTD growth (with HB 170)
- FY15 5.7% YTD growth

Income Tax

- FY17 0.1% YTD growth 
- FY16 6.4% YTD growth
- FY15 13.4% YTD growth

FY17A Major Additions (Gov. Proposal)

- \$111 million for K-12 mid-year adjustment
- \$29 million for child welfare
- \$27 million for 20% law enforcement pay
- \$24 million for law enforcement vehicles
- \$91 million for economic development initiatives including \$50 million for a Cyber Security Range
- Generally a bunch of IT/Systems/Vehicles, and other minor capital outlay

FY18 Outlook

- A number of other states are experiencing mild-moderate fiscal stress
 - Around 24 other states reporting FY17 revenues tracking below estimates (NASBO)
- Georgia by and large appears to be solid
 - FY17 Growth at 4% YTD
 - FY16 Growth 4.6% (w/ transportation bill, 8.8%)
 - FY15 Growth 6.6%
 - FY14 Growth 4.8%
- FY18 state general funds estimate = 3.5% growth over FY17 amended budget, \$1.19 billion

FY18 Major Additions (Gov. Proposal)

- \$515 million for K-12 education (~43% of new revenues)
 - \$163 million for 2% teacher pay raises
 - \$180 million for retirement system ADEC
 - \$133 million for formula funding growth in QBE
 - \$86 million for equalization
- Medicaid funded by \$122.9 million in the Tenet Settlement agreement + FMAP growth → *\$87 million decline in state funds to Medicaid!*
- \$290 million for non-teacher pay raises
- \$55 million for law enforcement pay raises
- \$25 million for child welfare service workers +\$5.4 million to hire more child welfare workers
- \$30 million for out of home placements (foster care)
